The International Physicians for the Prevention of Nuclear War is a group of Doctors who want to end war. They think war makes people sick.

Dr. Chazov and Dr. Lown were doctors who wanted to start the IPPNW. When men and women become doctors they make a promise. This promise says that they will try to never hurt anyone. The Doctors in the IPPNW think that this is why the IPPNW is so important. They want to keep people from all over the world healthy and safe.

The IPPNW has 145,000 Doctors who agree with this idea. They joined the IPPNW. This happened during the Cold War. In the cold war countries divided into two groups. Each one had many bombs. The groups did not like each other.

The IPPNW agreed to four important ideas.

1. IPPNW would think about war
2. IPPNW physicians would try to stop wars so people could be healthy,
3. IPPNW wanted Doctors from all countries in the world to talk about how to stop war.
4. Though IPPNW would not talk about any countries in a bad way.

Each year, the IPPNW has a meeting to about how countries are doing and if they are trying to stop war.
The “Peace Through Health” is one of the ideas of the IPPNW. This program finds ways for people to have health care in war zones or countries that may become war zones.

The IPPNW believes that people can have peace. When people understand each other world will be free of wars.
